## EXPERIENCE

### FullStack Developer - [Alphen SRNTY](#), Geneva

May 2023 - Today - 80%

Application development for a professional services marketplace platform.

*The application provides professionals with an interface to manage their activities and offer their services to the public. Consumers can search for services and book appointments online.*

- Front end coding of the initial version of the app within a team of 5 developers working in collaboration with the marketing and web design departments.
- Data structure creation of the API, configuration of Docker containers and AWS hosting.
- Implementation of a multi-level authentication system (signup / login and reconnect).
- Implementation and management of the Google API for addresses auto-completion and custom maps.
- Implementation of the Stripe API for online payment management.

*"Securing authentication and organizing the data structure allowed the development team to work on a solid basis and create a quality user experience. My human investment also helped to unite the new team and create a healthy and productive working atmosphere."*

**Technologies** [Docker](#) / [Node.js](#) / [Next.js](#) / [React.js](#) / [Gitlab](#) / [AWS lightsail](#) / [Google API's](#)

### Fullstack Developer - [JH Media Group](#), Atlanta, USA

In Full remote: April 2022 - August 2022 at 100%

#### 1) Development of a COVID related application

*SaaS application to test and regulate the access of staff & visitors to a company's premises. Based on their body temperature, people are authorized to enter the premises or are redirected to a manager.*

- Development of functionalities (like for example multi-step forms depending on the type of visitor, display of pages depending on the type of user).
- Debugging and refactoring of the front end and the back end.

*"I became part of the project when it had reached 75% of the MVP development stage, and my involvement helped in refining the development process, ensuring a more structured and user-friendly interface."*

**Technologies** [Docker](#) / [Node.js](#) / [Laravel](#) / [Vue.js](#) / [bitbucket](#) / [suite Confluence](#)

#### 2) Development of a Wordpress site [jhmediagroup.com](#)

*The corporate website required an update, so we established a new WordPress site and revamped both its design and layout.*

- Custom feature development ("modal" video presentation on the home page).
- Performance optimization and compliance with accessibility standards (ADA Compliance).
- Responsive design development (making the site accessible and adaptable to all devices).

**Technologies** [Wordpress-Divi](#) / [Cpanel](#) / [HTML](#) / [CSS](#) / [Javascript](#) / [PHP](#)

### Web Integrator - [Freelance](#), France

January 2019 - June 2021

Website development, project management, content creation.

*Our clientele was made up of associations, tradesmen and self-employed people from various sectors.*

- Clients relations (proposal, specifications, project monitoring)
- Project management and infrastructure implementation
- Content creation and integration
- Troubleshooting
- Online secret ballot voting, configuration of voting system
- Search Engine Optimisation

*Working as a freelance developer has allowed me to master my ability to understand and translate my clients' ideas and needs.*

*Managing the different aspects of a project from its design to its production is a learning experience and requires transversal skills (relationships, rigor, punctuality, reliability) that I have acquired in my previous professional lives.*

## Other experiences

### Cook

2016-2019

This job requires you to be focused, creative, proactive, reactive and organized. These skills help me every day in my life as a developer.

### Commercial

2006 - 2015

In contact with customers, I developed my listening and persuasion talents as well as my ability to express myself in public. Business is the school of human relations that allows me today to work in harmony within a team.

### Guide to kayaking - Rafting - white water swimming

1995 - 2006

Guiding competitors or simply holidaymakers on natural trails demands a keen sense of safety and priorities. Organizing such an activity also requires skills such as anticipation and organization, which I use every day in my professional environment.

## FORMATION

### Fullstack Web Developer

July 2021 - March 2022

#### Openclassrooms

- Frontend integration (html, javascript, advanced CSS animation)
- Performance and accessibility optimisation
- Creation of type-safe backends 'Model ViewController' backends

**Technologies** [Node.js](#) / [Express](#) / [Git](#) / [SQL](#) / [MongoDB](#) / [React.js](#) / [Vue.js](#)

### State Certificate of Sports Educator 1st Degree: Kayak and associated disciplines

2001 - 2002

### Baccalaureate Economics and Social

1996 - 1998
